

Cookies Policy

Last updated: January 08, 2021

Cookies are small files which are stored on a user's computer. They are designed to hold a modest amount of data specific to a particular client and website, and can be accessed either by the web server or the client computer. This allows the server to deliver a page tailored to a particular user, or the page itself can contain some script which is aware of the data in the cookie and so is able to carry information from one visit to the website (or related site) to the next.

For Morgan Fuels, cookies remember whether you visited the site before, so that you remain logged in – or help us work out how many new visits we receive each month. They don't include personal information about you

We do not store sensitive personal information, such as mailing addresses, account passwords, etc. in the Cookies we use.
